

A horizontal number line with two scales. The top scale is labeled 'Km' at both ends and has tick marks at 0, 2, 4, and 6. The bottom scale is labeled 'Miles' at both ends and has tick marks at 0, 1, 2, 3, and 4. The line is divided into 4 equal segments by vertical tick marks. The first segment on the miles scale (0 to 1) corresponds to the first segment on the kilometers scale (0 to 2). The second segment (1 to 2) corresponds to the second segment (2 to 4). The third segment (2 to 3) corresponds to the third segment (4 to 6). The fourth segment (3 to 4) corresponds to the fourth segment (6 to 8, though 8 is not labeled).
